FOREWORD

The material presented herein represents a truly outstanding resource for the researcher engaged in the study of the History of the Civil Air Patrol. Its numerous citations cover the field in a manner unprecedented for a volunteer paramilitary organization.

Over the past several years it has been my distinct pleasure to be associated with the author. For the most part this association has been related to our mutual undying goal to preserve the rich history of one of the world's most unique volunteer organizations, the Civil Air Patrol. He has been a source of encouragement to my personal efforts in behalf of our mutual goal. In many cases he has prodded me into doing what should be done. His professional approach, both to the material at hand, and to the other of his several Civil Air Patrol endeavors has been an inspiration to all members of the National Historical Committee of that organization.

To say that this is a monumental undertaking is a gross understatement. The amount of personal sacrifice and dedication involved in an undertaking of this nature on a volunteer basis can not be quantified, nor can it adequately be compensated. It could have only been undertaken by an individual, such as the author, who has a basic philosophy which lies in service to his fellow man.

DEDICATION

Civil Air Patrol was founded 1 December 1941. This makes 1991 our 50th Anniversary Year.

This publication is therefore dedicated to the thousands upon thousands of loyal and faithful Civil Air Patrol members who, over the years since World War II, have given of their time, their money, and in some cases their lives, in support of the defense of this country, and, in support of the three Congressionally-mandated missions of this organization: Cadet Programs, Aerospace Education, and Emergency Services.

To all those who have gone before - "Well Done."

"Life can only be understood backwards;
but it must be lived forwards."

CIVIL AIR PATROL 1941-1991:
A CHRONOLOGICAL BIBLIOGRAPHY

PART I
THE PERIODICAL LITERATURE

A chronological bibliography of
the literature published about
the Civil Air Patrol as found
in the major American indexes
to the periodical literature.

INTRODUCTION TO PART I

This portion of the Bibliography was begun in mid-1987 after accidentally finding some references to the Civil Air Patrol in several standard American indexes to the periodical literature.

Throughout the balance of 1987, and the first half of 1988, the search continued. As more and more citations were found, interest and curiosity grew. The search was widened to include non-print indexes. This immediately resulted in the discovery of a surprisingly large number of nonperiodical items (books, journals, maps, filmstrips, sound recordings, reports, government documents, theses, etc.), as well as many more periodical citations.

In May, 1988, feeling that this information was too interesting and valuable to keep in my personal file, the Maryland Wing Historical Program Office issued this portion of the Bibliography as HPOP (Historical Program Office Publication) 88-1, without the Subject and Source indexes. Copies were issued to all unit historians in the Maryland Wing as well as to key Wing command and staff personnel. Immediately thereafter, work began on preparing the nonperiodical portion for similar release.

A word is required regarding the citation arrangement. Originally, these citations were kept on 3x5 file cards. To keep them in chronological order, an identifying number was placed in the upper left hand corner of each individual card. This number represented the date of publication. It was in the format YYMMDD (Year, Month, Day). Thus, 570123 would represent an article published on 23 January 1957. This scheme works very well for journal, magazine, and newspaper items. When the citations were input to a PC data set, using a software program with no sort capability, this identifying scheme was retained. As a result, the reader will, occasionally, find the index entry referring to more than one citation. It should not prove difficult to determine which citation is being referred to.

Another word to the reader. Bibliographies are, by their very nature, neither absolutely accurate nor comprehensive. The citations presented here were obtained from published indexes. Not all journals, magazines, or newspapers are indexed. When these publications are indexed, not all of the included articles are necessarily indexed. The choice of what is indexed is the prerogative of the publisher. All publishers operate under limitations of scope and coverage determined by their chosen, or perceived, marketplace. Additionally there is also the problem of lag-time. An article indexed today may not appear in print for six months, perhaps a year. One cannot say, then, with any certainty, that, as of a given cut-off date, all items on a topic have been located and identified. If you, personally, know of some CAP citation which does not appear here, don't be upset. It may never have been indexed in a major American in-

dexing publication (print or non-print), or, it may have appeared after my completely arbitrary cut-off date.

Note: Citation numbers followed by the + sign indicate late additions provided by LtC Hellenmarie Walker, Oregon Wing Historian and Member, National Historical Committee. As we were already well beyond our estimated publication deadline, these citations were input "as received." I wish to publically thank her for her most generous contributions to this work.

I would like to personally thank Col Lester E. Hopper, Civil Air Patrol National Historian, for his support in the publication of this bibliography. I am afraid I severely tested his long-suffering, but understanding, nature. For that I wish to offer him my sincere public apology.

I hope this bibliography will prove useful. If, in any small way, it does, then the time and effort that has gone into its production shall have been worth while.

I would greatly appreciate being informed of any errors, or omissions, that you, the reader, may become aware of. Your comments should be addressed to me at my home address: 1339 Butterfly Lane, Frederick, Maryland 21702.

CIVIL AIR PATROL 1941-1991:
A CHRONOLOGICAL BIBLIOGRAPHY

PART II
THE NONPERIODICAL LITERATURE

A chronological bibliography of
books, journals, theses, reports,
documents, maps, filmstrips, recordings,
and the like, published by, or about,
the Civil Air Patrol.

INTRODUCTION TO PART II

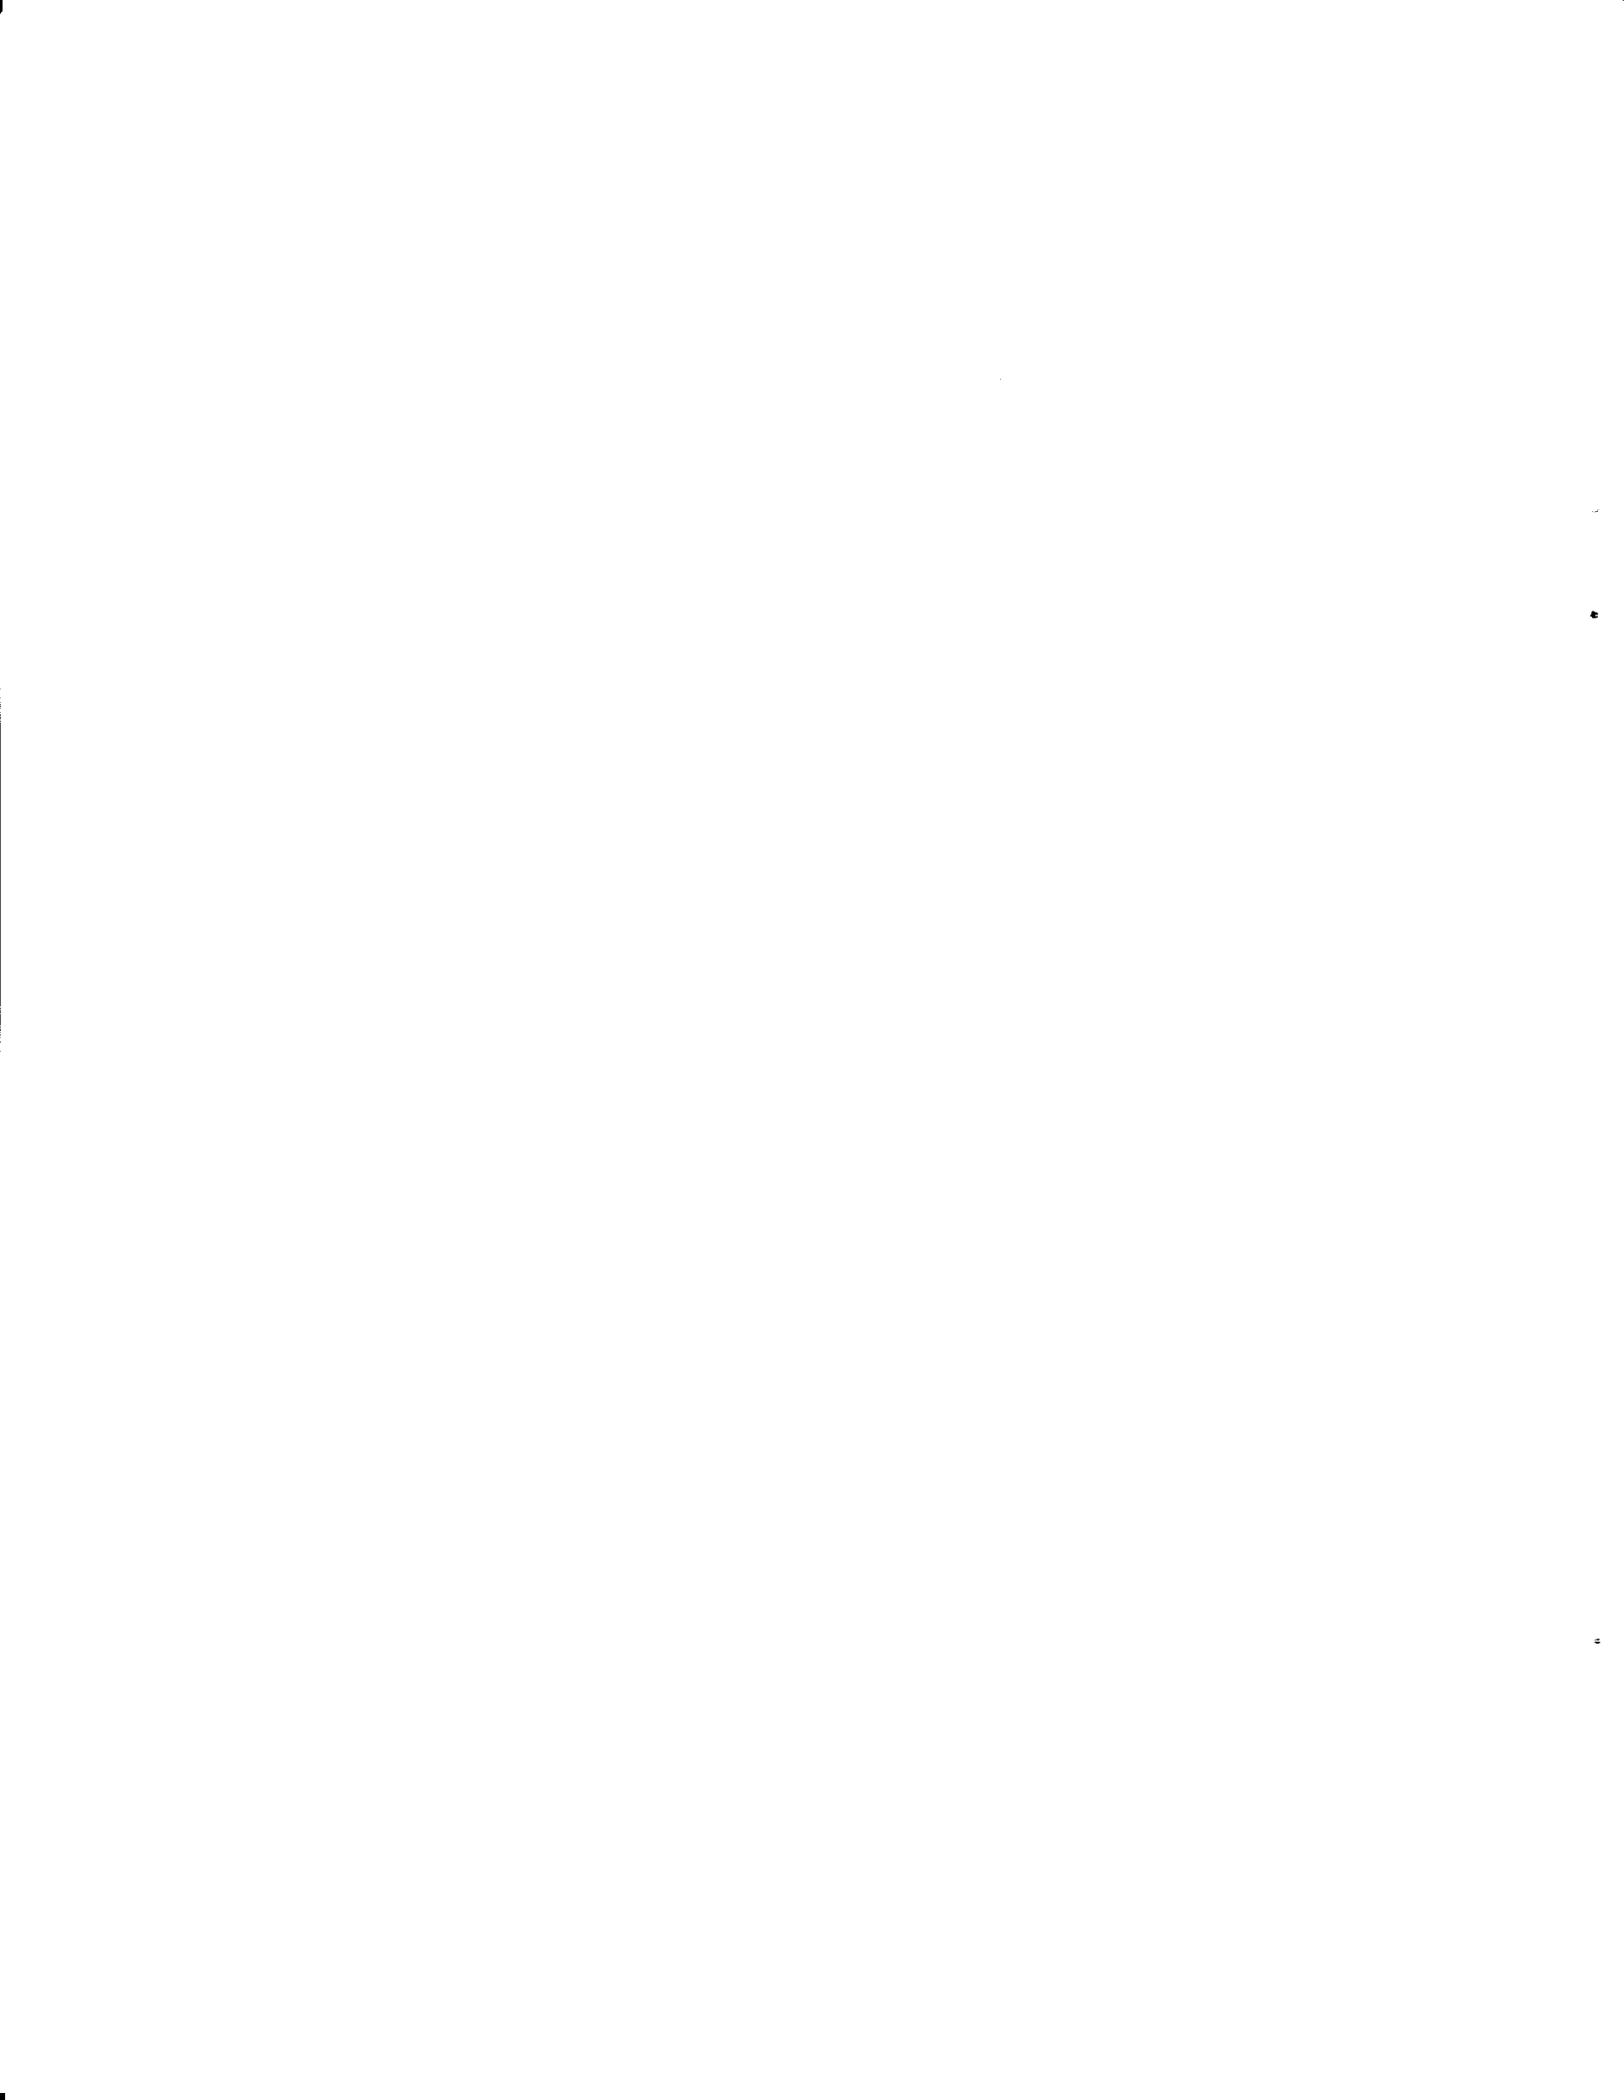

As previously stated, Part I, without Subject or Periodical indexes, was issued to the Maryland Wing in May, 1988, as HPOP 88-1. Part II, without the Subject index, was issued to the Maryland Wing in August, 1988, as HPOP RV1 (RV being Revised Version).

Where most of the citations to the periodical literature appearing in Part I were obtained from printed indexes, most of the citations to the non-periodical references appearing in Part II were obtained from various computer-based online sources, such as OCLC, Dialog, etc.

No attempt was made to reference the Congressional literature, as an unpublished bibliography had already been compiled by a member of the National Historical Committee (LtC Hellenmarie Walker, Oregon Wing Historian). At the last minute this bibliography became available for inclusion here. Much of this bibliography has been incorporated into Part I. The remainder appears here, in Part II. I would like to publically thank LtC Hellenmarie Walker for her generosity in allowing her material to be incorporated into this publication. I have also included the occasional Congressional bill, or report, found in the normal course of investigation.

In like manner, no attempt has been made to reference the manuals, regulations, and pamphlets of the Civil Air Patrol. Bibliographies of these (unpublished) have been prepared by Col. Lester Hopper, CAP National Historian. Again, the occasional manual, regulation, or pamphlet, found in the normal course of investigation, has been included.

Note: As previously noted, the citation numbers followed by the + sign indicate late additions provided by LtC Hellenmarie Walker, Oregon Wing Historian and Member, National Historical Committee. As we were already well beyond our estimated publication date, these citations were input "as received."
